This normally happens when after the sentence is over, we do not hit enter, but just keep typing 'space' and the sentence starts on the next line.. This happens when the text alignment is 'justified' in word Just go to the end of the line and press enter once.. Going to 'System Preferences', clicking on 'General' then checking 'Close windows when closing an application', guess what?Microsoft Office still opens! This DOES work: Go to 'Applications > Microsoft Office 2011 > Office > Startup' then trash all folders in this folder to stop or prevent Microsoft Office from launching on Startup.. Ask the community Get help from experts in our forums: for Mac users Provide feedback in Office app You can send feedback directly to our Office teams.. • On you dock locate the Excel Icon, press control and click over the excel icon, a new windon will popup, choose options and the ENABLE the option 'OPEN AT LOGIN' and release the control button.. Have a feature request? We love reading your suggestions on new features and feedback about how you use our products! Share your thoughts on the site.. Going to 'System Preferences', clicking on 'Users & Groups' then selecting 'Login items', (for me, theres no reference to ANY Microsoft Application whatsoever), Microsoft Office still opens 03. 0041d406d9 [How To Remove Idm Fake Serial Message](#)
